

1. Have you finished all eight courses in the Google Data Analytics Certificate?

1 point

Congratulations! As a Google Data Analytics Certificate graduate, you've unlocked exclusive job search resources. Sign up for these free resources, courtesy of Google. *Note:* To access the free resources below, you must use the same email address that you use to log in to Coursera, as this is how we confirm that you completed the certificate. If you have not yet completed all 8 courses in the Google Data Analytics Certificate, you will not be able to access these resources.

☐ Claim your Google Data Analytics Certificate badge.

When you complete the Google Data Analytics Certificate, you will receive an email from Credly (admin@credly.com) with instructions about claiming your badge and setting up your account. Please allow at least one week from your date of completion for the system to update. Remember to check your spam folder. Claim your badge on Credly's Acclaim platform using the email address linked to your Coursera account. You'll need to opt in to share your information for the purposes of badge issuing. Then, add the badge to your LinkedIn to stand out to employers by following the steps in this [Credly article](#) or [video tutorial](#).

☐ U.S. graduates: Join [CareerCircle](#) for free career support.

Google is giving certificate graduates, like you, free access to career support from CareerCircle, including a resume builder and interview preparation resources to help you land your next job. Plus, you have access to free 1-on-1 career coaching and thousands of job postings from top employers. You must be eligible to work in the U.S. to unlock this resource.

☐ Practice interviewing with [Interview Warmup](#).

Improve your interview technique with Interview Warmup, a tool built by Google with certificate graduates in mind. Access data analytics specific practice questions, transcripts of your responses, and automatic insights that help you grow your skills and confidence.

☐ Sign up for [Big Interview](#).

Get practice with mock interviews, job search tips, and customizable resume templates with Big Interview, available free for one year to Google Career Certificate graduates.

☐ [Share your story](#). Stories from successful graduates, like you, can inspire other learners to pursue their passions. In addition, your feedback helps us improve the certificate program. Fill out this short survey to tell us about your journey!

☐ Post on social media. Use #GrowWithGoogle to let your network know about your achievements. Check out these [sample social posts and prompts](#) for inspiration.

☐ Apply your data analytics skills and advance your career. There are two advanced Google Career Certificates that are designed to build on the foundational knowledge you developed in this program, if you want to continue learning.

- [Google Business Intelligence Certificate](#): The speed and variety of data increases constantly, and businesses need people who can collect, interpret, and monitor data to inform business decisions. The Google Business Intelligence Certificate will teach you how to create processes and information channels that transform data into actionable insights, using tools like BigQuery, Tableau, and SQL.
- [Google Advanced Data Analytics Certificate](#): Advanced data analysts and data scientists are responsible for collecting, analyzing, and interpreting large amounts of data. Their work requires manipulating data sets and using advanced analytics techniques. The Google Advanced Data Analytics Certificate will teach you about machine learning, predictive modeling, and experimental design, and provides hands-on practice with tools like Jupyter Notebook, Tableau, and Python.
